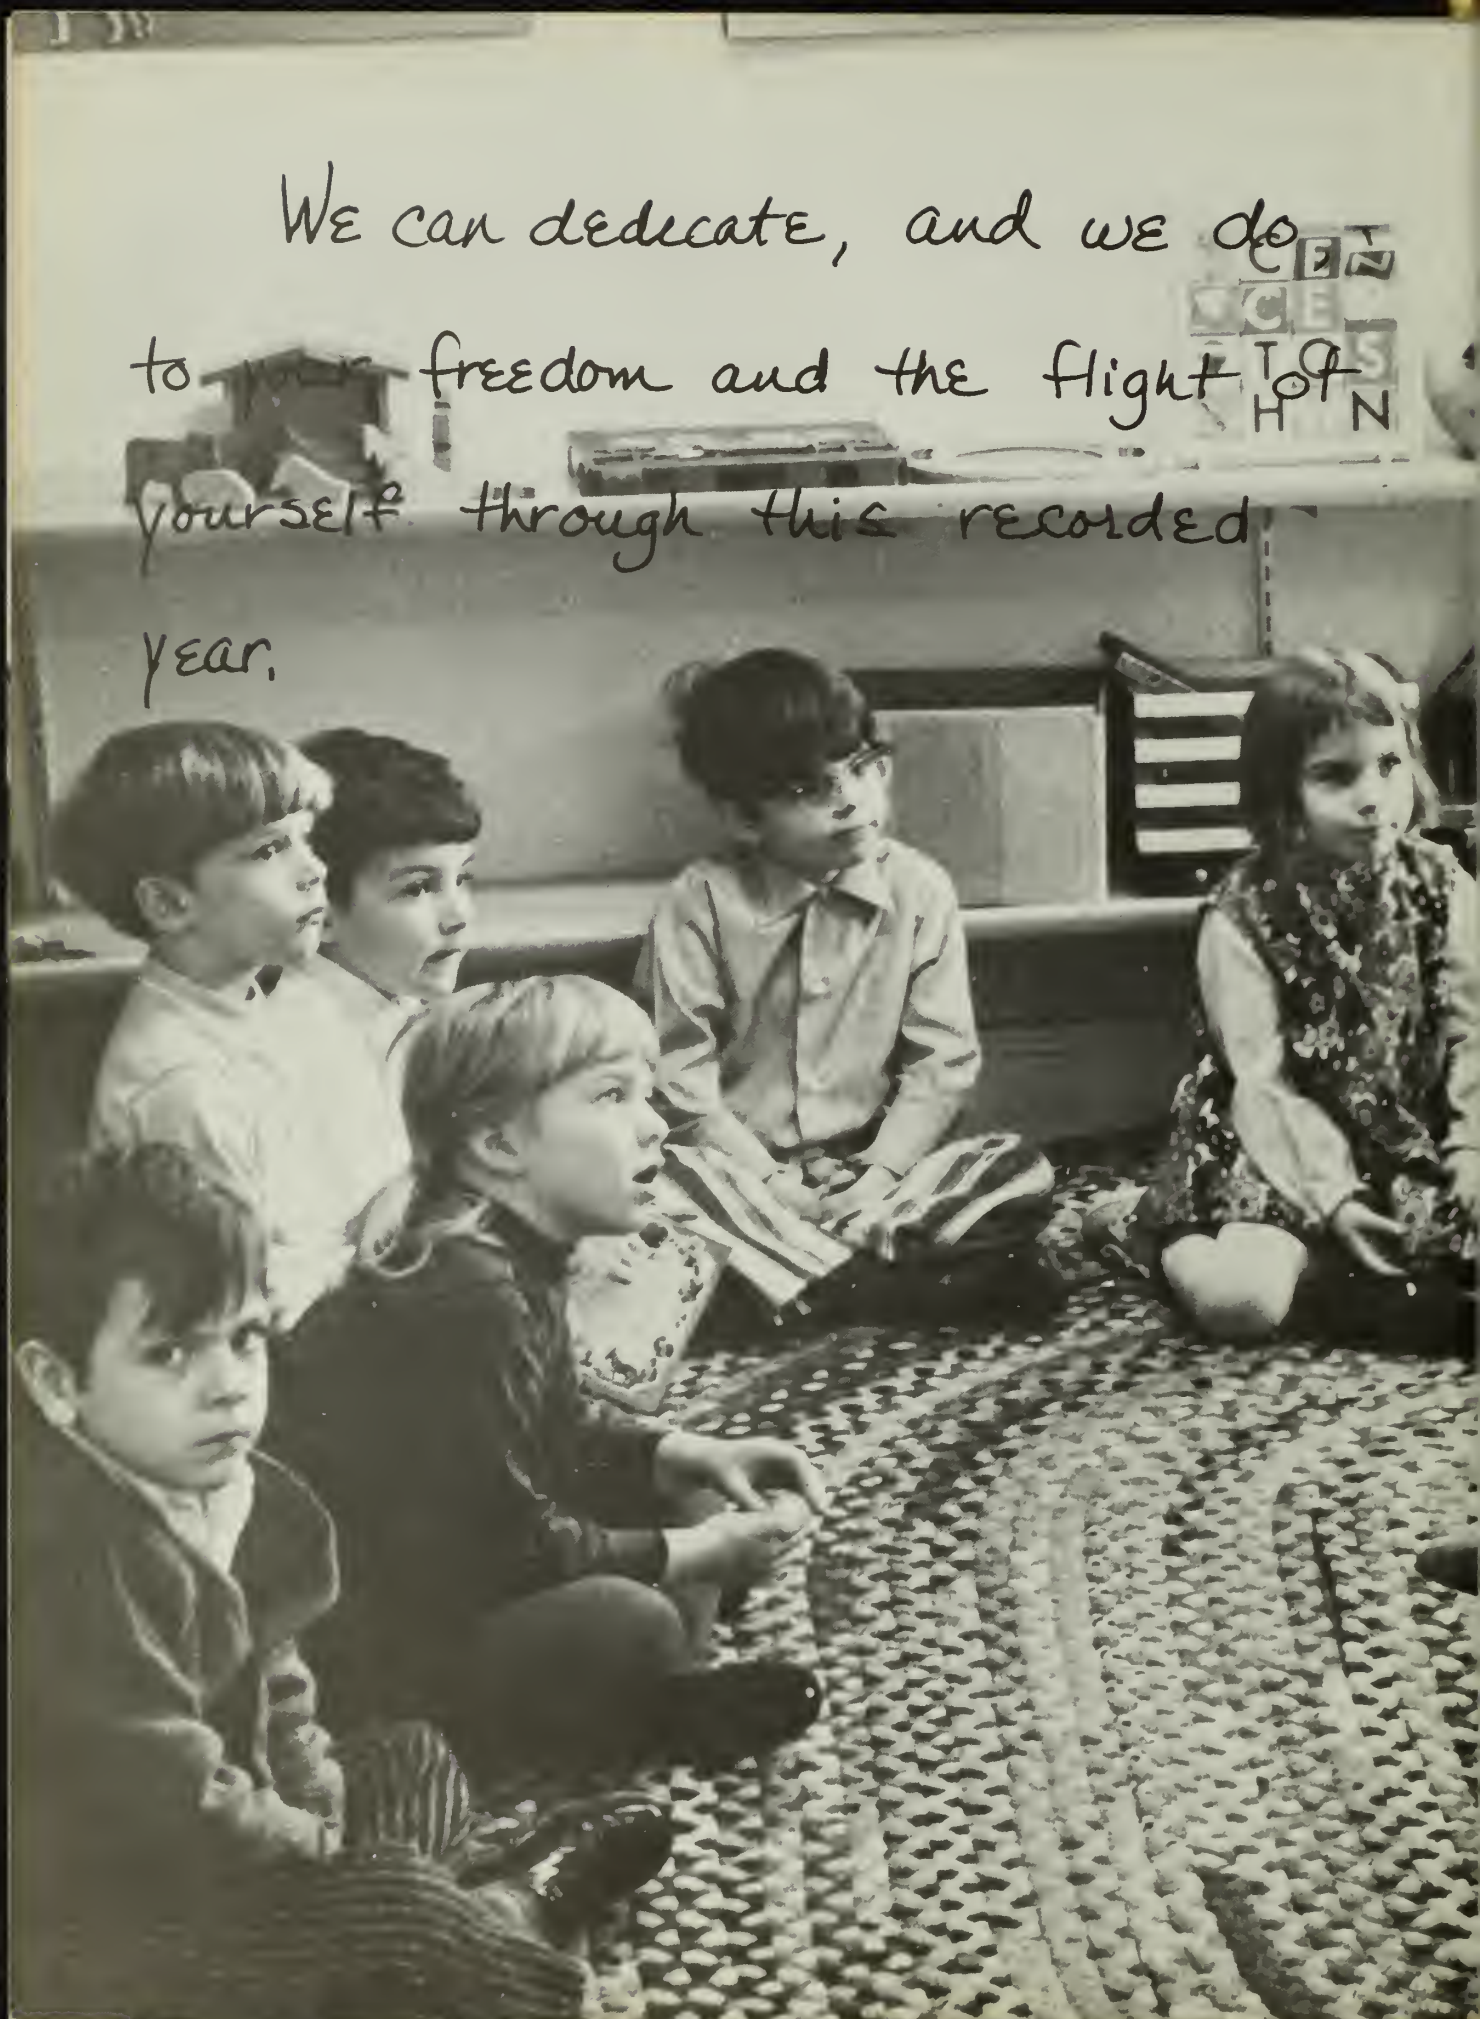
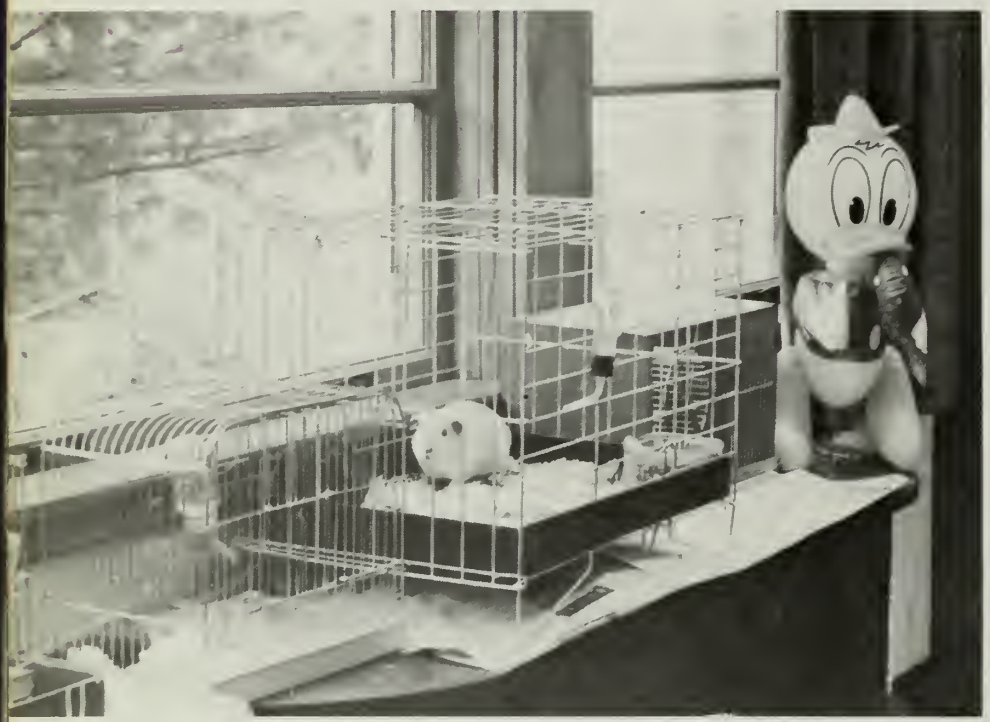
The purpose of any book, is to set before the reader an image or train of thought. We have attempted, sincerely, to do this, using your actions of the school year '71 - '72 as our subject matter. We can record events, picture smiles, quote words, and arrange them as carefully as we feel fit. We cannot, though, enclose between bindings or paper your love, efforts, and feelings. You must do this.



We can dedicate, and we do
to your freedom and the flight of
yourself through this recorded
year.

STUDENT LIFE

The life of a student can be said to consist of two parts, the typical and the outstanding.



He rules

the world with truth and grace.

It is the blend of these that makes September through June hectic, productive, and never ending.

Many occasions are unparalleled in the life of a student; these are the source of our most spectacular memories.

COMES

For the most part, it is the unobtrusive,
the personal happenings of routine that build a day.

Of course, these calm moments help
to accent the occasions, the times of true revelry.

"Peace be with you, friend."

I want to know my God.

I will not take him lightly,
no one shall serve Him to me.
